

## REMARKS

This Amendment is submitted under the provisions of 37 CFR 1.312. It is respectfully requested that the Amendment be entered since no substantive changes have been made to the claims, and entry and consideration of the Amendment will not require any substantial additional work on the part of the Examiner.

Claims 27-50 are pending in the present application. With this Amendment, claims 27, 28, 30-33, 36-45 and 47-49 have been amended. The claim amendments presented herein are in addition to the amendments made by the Examiner's Amendment included with the Notice of Allowance dated July 22, 2009. The claim amendments in the Examiner's Amendments have been reviewed and are acceptable to the Applicants.

The claim amendments presented herein are necessary to further clarify the claims and place the claims in a preferred U.S. claim format. The amendments to claims 27, 28, 30-33, 36-45 and 47-49 do not alter the scope of the claims, and therefore will not require any additional search or consideration by the Examiner. Since the scope of the claims has not been changed, the claims remain patentable for the original reasons of allowance noted in the Notice of Allowance dated July 22, 2009.

Therefore, it is respectfully requested that the Amendment be entered as being directed to matters of form not affecting the scope of the invention.

Respectfully submitted,

Shigetaka KASUGA et al.
